

the door collection

by Senior Architectural Systems

An innovative range of aluminium doors that perform as perfectly as they look

delivering quality
fenestration solutions
since 1991

Tried, tested and trusted aluminium doors that perform as well as they look.

Sleek, stylish and built to last, aluminium doors are the perfect way to accentuate and add value. The attractive aluminium frames and high performance glazing maximise the flow of natural light, giving picture perfect views and easy access to outside spaces as well as creating bright and airy interiors.

the Senior difference

The largest privately owned fenestration systems house in the UK, delivering quality fenestration solutions since 1991.

Today we offer a flexible range of products that are ideally suited to meet the demands of both traditional and new-build homes. Naturally strong and easy to maintain, it's easy to see why aluminium doors are a popular choice and a smart investment. Offering exceptional durability which outperforms traditional timber systems and providing a sleeker, more attractive finish than PVC-U, all of our aluminium doors and windows are manufactured here

in the UK to meet the highest safety and security standards. They are also fully recyclable and energy-efficient so can help reduce carbon footprint and heating bills too.

The strength of aluminium allows our doors to support much larger spans of glazing within a slim frame and this gives uninterrupted views and greater light diffusion.

-  Sustainable Manufacturing
-  Large Network of Support
-  UK Designed and Manufactured
-  Impressive Performance

"Our motto is to 'give our customers what they want, when they want it', which is why you'll find our range of high quality doors and windows is fully supported by a trusted and reliable network of installers across the UK."

Mark Wadsworth, Managing Director

stylish doors,
impressive performance

Attractive designs combined with exceptional performance.

Our stylish aluminium doors have been carefully designed and developed to offer excellent thermal and acoustic performance, helping to create living spaces that can be enjoyed all year round.

- ✓ **Save money** on your heating bills
- ✓ Help **reduce external noise** pollution
- ✓ **Future-proof** your home by improving its energy-efficiency
- ✓ Enjoy cosy and peaceful interiors **whatever the weather**
- ✓ Available in an almost limitless range of **colours and finishes** with premium **quality hardware** available
- ✓ **Security comes as standard**

Doors designed for you.

We have a wide collection of aluminium bi-folding patio and sliding doors available in a choice of sizes, configurations, styles and colour options, for a bespoke finish both inside and out. All our aluminium doors are fully compliant with the latest security regulations, including PAS 24, approved document Q of the Building Regulations and Secured by Design.

all about Ali

Slimline version
available to give
maximum daylight and
uninterrupted views

Achieve glazing from
24mm to 48mm
Dependent on specific options

the PURE[®] choice

Sustainable and built to last

Double or triple glazing options available, up to 52mm, to maximise thermal and acoustic performance

Dependent on specific options

Fully compliant with Part L and Part Q

Benefiting from a thermal barrier made from expanded polyurethane foam, tried and tested and used in the construction industry for many years

PURe[®]
DOOR SYSTEMS

The PURe[®] range takes our already high-performance aluminium doors to the next level, offering even greater energy-efficiency and protection from the elements.

For a hassle-free and cost-effective way of creating a warm and cosy interior whilst reducing heating costs, the energy-efficient PURe[®] range offers the ideal solution.

- Cutting-edge patented system
- First to the UK market to benefit from an enhanced thermal barrier manufactured from expanded polyurethane foam (PUR)
- Tried, tested, and trusted solution
- Exceeds the current requirements of Part L of the Building Regulations
- Impressive thermal performance resulting in ultra-low U-values
- Excellent durability and versatility
- Offering attractive slim sightlines and a choice of design options and configurations

folding sliding doors

We have styles to suit
any space or budget.

From the traditional elegance of single or double 'French doors' to the popular bi-folding or folding sliding styles that provide seamless access to the garden.

Stylish slim frame: the Ali door range offers the popular 'less frame more glass' design option with a heavy duty version available.

Enhanced performance option: the PURE[®] door range features patented technology to provide even greater thermal and weather performance.

sliding doors

A modern and stylish alternative to a traditional patio door.

Sliding doors are ideal for maximising the sense of light and space in a home and are precision engineered to effortlessly glide open.

Stylish slim frame: the Ali door range offers the popular 'less frame more glass' design option with a heavy duty version available.

Enhanced performance option: the PURe® door range features patented technology to provide even greater thermal and weather performance, with a heavy duty option available.

Fully compliant with Part L and Part Q

Leaf weights up to 220kg

Available in double or triple glazing up to 44mm

Fully weather tested to BS6375-1, BS6375-2, BS675-3 and security tested to PAS 24 and SBD

Sliding door
Standard interlock

Slide: Ali and PURE® - available as a double or triple-track system, our traditional sliding doors sit directly on the rollers and can be easily opened using the handle to pull the door along its track.

Lift and Slide: PURE® only - for larger door panels, the door sits directly on the track and the handle is used to 'lift' the door up onto the rollers so it can gently slide open.

Slide Double Track: Our double track sliding doors offer a 50% opening aperture to provide access, ventilation and natural light.

Slide Triple Track: Offering a larger opening aperture of 66%, our triple-track option enables all three door panels to slide to achieve wider views and full-length sliding glass walls.

Finishing Options

All of our aluminium doors can be further accentuated with a choice of hardware, from handles to hinges, letter plates to locking systems. Guaranteed to last and easy to maintain, our comprehensive range of hardware choices come fully backed by a manufacturer warranty.

Handle Options

The small details can make a big difference, which is why we offer a choice of door handles in a variety of finishes, all of which complement our aluminium windows too.

Threshold Options

Designed to perfectly suit all homes and projects, our aluminium door range is also available in a flexible range of thresholds for easy access.

*Colours shown are representative only. Hinges available in Black or Satin Nickel.

**Part of the Blu range. Contact us for more information.
